## NEW - Healing Healthcare Initiative Announced

The healthcare industry is facing a crisis and healthcare leaders are being met with unprecedented challenges. With more than two decades of experience supporting the mental health and well-being of the healthcare workforce, we are proud to share the Schwartz Center's [Healing Healthcare Initiative \(HHI\)](#). HHI provides leaders of healthcare organizations with guidance and support to ensure the care they offer is relationship-based, compassionate, safe and effective. It will give healthcare leaders the cohesive framework and practical resources they need to build a culture of resilience and inclusion at their organizations. It will empower leaders to recognize, remedy and prevent psychological distress and stress-related injuries among their staff. And it offers our leaders the support they need themselves.
